	Examiner Andrew Joseph Rudy	Art Unit 3627	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Applicant's election of 1-7 and 15 in the response received April 28, 2004 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)). It is noted that an extra burden would be placed upon the Examiner to examine all claims 1-15 at one time.
2. Claims 8-15 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse on April 28, 2004. The Examiner Inadvertently included claim 15 along with method claims 1-7. However, it is clear that claim 15 is drawn to an apparatus, as are claims 8-14. Thus, claim 15 properly belongs with Group II and is withdrawn from consideration.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
4. Claims 1-7 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1, line 2, "to internet" is not clear. Perhaps Applicant intends the statement to read "to an Internet." Clarification is required.

Claim 6, line 2, "the event" lacks antecedent basis.

Claim Rejections - 35 USC § 103

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claims 1-7 are rejected under 35 U.S.C. 103(a) as being unpatentable over Schrader, US 5,903,881.

Schrader discloses a computer, e.g. 301, implemented automatic reconciliation, e.g. col. 14, lines 34-36, of a bank statement, e.g. 150, comprising spreadsheets, e.g. col. 11, 181, and a warning error message, e.g. col. 14, lines 2-57, that may be used over the Internet. Schrader does not explicitly disclose a computer accessing a computer server. Official Notice is taken that computer servers used with computers is common knowledge. To have provided the computers accessing one or more computer servers for Schrader would have been obvious to one of ordinary skill in the art. Doing such would implement common knowledge interconnection of computer systems when implementing the computer system of Schrader. It is noted that with regards to claim 7, Schrader's system is enabled to add new checks thereto.

It is further noted that intended use, e.g. "for automatically" and "enabling" do not positively recite claim limitations that further define the instant invention.

7. Further pertinent references of interest are noted on the attached PTO-892.
8. The Information Disclosure Statement has been reviewed. See attached PTO-1449.

Conclusion

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Andrew Joseph Rudy whose telephone number is 703-308-7808. The examiner can normally be reached on Tuesday thru Friday, 7:30 a.m until 6 p.m..
